

**BRAVE MEN WHO WERE WILLING
TO DIE FOR THEIR NOBLE IDEALS.
THEIR PRINCIPLES WILL NEVER DIE!**

The historical record makes it clear the crew of this famous Confederate naval innovation knew they were likely to die.

What would make men place themselves so directly in harm's way? They appear to have even known the Union vessels were preparing defenses against them.

These men believed they should be allowed to pursue their own interests without having to sacrifice their Southern rights and identity. Today, those very rights are obviously being forfeited to those who practice social engineering on our families. These people would offer us multi-culturalism, homosexuality, radical humanist religion, the demonization of our anglo-celtic cultural heritage and confiscation of our incomes.

The League of the South asks you to join with those of us who would preserve our Southern heritage, morals and way of life. We ask you to work through your churches, school systems, civic clubs, relatives, and, yes, our League to save the future for all our children and grandchildren. We must unite to win!
